

Date: Sunday May 2, 2010

Presentation: S1080

The Relationship Between Symptom Response, Esophageal Eosinophilia and Wall Distensibility in Eosinophilic Esophagitis - A Pilot Study Following Proton Pump Inhibitor Therapy

Authors: Monika A. Kwiatek, Ikuo Hirano, Daniel Luger, Peter J. Kahrilas, Nirmala Gonsalves, John E. Pandolfino Dept. Medicine, Div. Gastroenterology, Northwestern University, Chicago, IL, United States.

Presentation Time: 8:00 AM - 5:00 PM

Date: Monday May 3, 2010

Presentation: M1361

Can Band Fill Volume Predict Gastric Band Stoma Size?

Authors: John O'Dea¹, Robert G. Snow²

¹ *Crospan, Galway, Ireland.* ² *Specialty Surgery Center of Fort Worth, Hurst, TX, United States.*

Presentation Time: 12:00 PM - 2:00 PM

Date: Tuesday May 4, 2010

Presentation: 595

Functional Lumen Imaging Probe to Assess Geometric Changes in the Esophagogastric Junction Following Endolumenal Fundoplication

Authors: Toshitaka Hoppo, Barry P. McMahon, Bart P. Witteman, Stefan J. Kraemer, Robert W. O'Rourke, Flemming H. Gravesen, Blair A. Jobe Division of Thoracic and Foregut Surgery, The Heart, Lung and Esophageal Surgery Institute, University of Pittsburgh Medical Center, Pittsburgh, PA, United States.

Presentation Time: 10:14 AM - 10:21 AM

Date: Tuesday May 4, 2010

Presentation: T1907

A Novel Distensibility Technique for Measuring Upper Esophageal Function - Pilot Data

Authors: Julie Regan^{1,3}, Barry P. McMahon^{2,3}

¹ *Speech & Language Therapy, Adelaide and Meath Hospital, Dublin, Ireland.* ² *Medical Physics and Bioengineering, Adelaide and Meath Hospital, Dublin, Ireland.*

³ *Dept. of Clinical Medicine, Trinity College Dublin, Dublin 2, Ireland.*

Presentation Time: 12:00 PM - 2:00 PM

Date: Tuesday May 4, 2010

Presentation: 873

Mechanical Properties of the Esophageal Body in Patients With Eosinophilic Esophagitis (EoE): A Pilot Study Using the Functional Luminal Imaging Probe (Endoflip[®])

Authors: Monika A. Kwiatek, Daniel Luger, Ikuo Hirano, Peter J. Kahrilas, John E. Pandolfino Dept. Medicine, Div. Gastroenterology, Northwestern University, Chicago, IL, United States.

Presentation Time: 4:15 PM - 4:30 PM

Date: Wednesday May 5, 2010

Presentation: W1725

Diagnosis of Scirrhous Carcinoma of the Proximal Stomach Aided by a Novel Functional Lumen Imaging Probe

Authors: Johannes Lenglinger¹, Margit Eisler¹, Sheida Mehrain², Marita Koelz³, Martin Riegler¹, Johannes Zacherl¹, Gerhard Prager¹

¹ *Surgery, Medical University Vienna, Wien, Austria.* ² *Radiology, Medical University Vienna, Wien, Austria.* ³ *Clinical Pathology, Medical University Vienna, Wien, Austria.*

Presentation Time: 12:00 PM - 2:00 PM
